## Summary

Passionate and dedicated undergraduate student at VIT Vellore, pursuing BTech in Computer Science and Engineering with a specialization in Internet of Things (IoT), currently in 2nd year as of 2023. With a strong foundation in programming languages like C/C++, Python, and Java, coupled with my proficiency in Frontend Development, my journey has been characterized by an unwavering commitment to continuous learning, innovative problem-solving, and the ability to transform ideas into practical solutions

Currently I am learning Machine Learning to further enhance my knowledge in the field of programming.

I possess ability to learn new programming languages and technologies quickly plus capability to work in teams by providing valuable support.

Feel free to connect with me if you share a similar passion. Let's connect and explore the avenues where our skills and interests align!
